Independent Auditors' Report

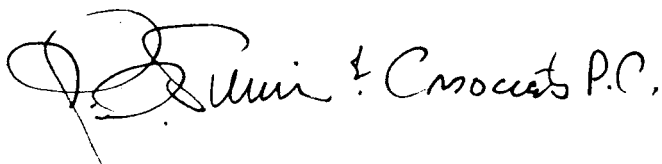

We have audited the accompanying financial statements of the governmental activities and each major fund of the Ebert Metropolitan District, Denver, Colorado, as of and for the year ended December 31, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the Ebert Metropolitan District as of December 31, 2005, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Ebert Metropolitan District has elected to not present Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Ebert Metropolitan District's basic financial statements. The accompanying supplementary information on pages 22 through 26 are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The information on pages 22 through 26 has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**EBERT METROPOLITAN DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2005**

**NOTE 1 - DEFINITION OF REPORTING ENTITY**

Ebert Metropolitan District (District), a quasi-municipal corporation, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Denver County, Colorado (Denver). The District was established to provide water, sanitary sewer, storm sewer and drainage, streets, parks and recreation, safety protection and transportation.

The District was organized concurrently with Town Center Metropolitan District (Town). The District has the power to provide sanitation, storm drainage, streets, traffic and safety controls and park and recreation improvements and other related improvements for the benefit of taxpayers and service users within Town's and the District's boundaries.

The District is intended to serve as the "financing district" while Town is intended to serve as the "operating district". The operating district is responsible for providing the day-to-day construction operations and administrative management of both districts. The operating district is economically dependent upon intergovernmental revenue received from the financing district.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations, and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity, including the City of Denver.

The District has no employees and all operations and administrative functions are contracted.

**EBERT METROPOLITAN DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The more significant accounting policies of the District are described as follows:

**Government-wide and Fund Financial Statements**

The government-wide financial statements include the statement of net assets and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net assets reports all financial and capital resources of the District. The difference between the assets and liabilities of the District being reported as net assets.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current period. The material sources of revenue subject to accrual are property taxes and interest. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is paid.

**EBERT METROPOLITAN DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources, except those required to be accounted for in other funds.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for and the payment of general long-term obligation principal, interest and related costs.

Conservation Trust Fund - The Conservation Trust Fund (a Capital Projects Fund) is used to account for the lottery proceeds received from the state. This revenue is restricted for recreation purposes under state statutes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**Budgets**

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

**Pooled Cash and Investments**

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash. Investments are carried at fair value.

NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Property Taxes**

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred revenue in the year they are levied and measurable. The deferred property tax revenue are recorded as revenue in the year they are available or collected.

**Development Fees**

The Board of Directors has established development fees to be collected at the time of a request for building permit from the builder based upon an original fee schedule of \$30,000 per acre for single family development, \$36,000 per acre for multi-family development, \$38,000 per acre for commercial development and \$10,000 per acre for development of school and church properties. Effective February 1, 2005, the fees were increased to \$32,500 per acre for single family development, \$38,500 per acre for multi-family development, \$40,500 per acre for commercial development, and \$12,500 per acre for churches. Developer fees for school sites shall be assessed as the Board deems reasonable and appropriate.

**Bond Issue Costs**

In the government-wide financial statements, bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond issue costs during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as general and debt service expenditures.

NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Fund Equity**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are legally segregated or are not subject to future appropriation. Designations of unreserved fund balances indicate management's intention for future utilization of such funds and are subject to change by management.

**Reserved Fund Balance**

Emergency Reserves have been provided for as required by Article X, Section 20 of the Constitution of the State of Colorado. \$19,000 of the General Fund balance has been reserved in compliance with this requirement.

The Debt Service Fund balance of \$1,890,534 is reserved for future repayment of general obligation bond interest.

The Conservation Trust Fund balance of \$1,597 is reserved for recreation purposes under state statutes.

**NOTE 3 - CASH DEPOSITS AND INVESTMENTS (CONTINUED)**

**Cash Deposits**

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2005, the District did not have any cash deposits since the local government investment pool described below provides payment services.

**Investments**

The District has not adopted a formal investment policy, however, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (\*) below, which are believed to have minimal credit risk; minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial credit risk for investment that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- \* Obligations of the United States and certain U.S. government agency securities
- . Certain international agency securities
- . General obligation and revenue bonds of U.S. local government entities
- . Bankers' acceptances of certain banks
- . Commercial paper

The State Securities Commissioner administers and enforces all State statutes governing the Trust. The trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreements. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. As of December 31, 2005, the District had \$2,512,359 invested in CSAFE.

**U.S. Treasury Money Market Fund**

During 2005, the cost of issuance funds that were included in the trust accounts at American National Bank (ANB) was invested in the SEI Daily Income Treasury Portfolio. This portfolio is a money market fund that is managed by SEI Investments and each share is equal in value to \$1.00. **NOTE 5 - FACILITIES CONSTRUCTION AGREEMENTS**

The District entered into a Regional Facilities Construction Agreement (Old Agreement) with Town on December 1, 1999. Under the Old Agreement, Town is to provide capital construction and administrative services to the District.

Town is to own, operate, maintain, and construct the facilities benefiting both Districts. The District will, to the extent that the District is to benefit, pay the capital and service costs of construction, operation and maintenance of such facilities. At special elections held within the District on November 3, 1998 and on November 7, 2000, the District's qualified electors approved \$33,000,000 and \$66,000,000, respectively, for a total amount of \$99,000,000, for the Old Agreement.

On April 28, 2005, the District and Town entered into a District Facilities Construction, Funding and Service Agreement (New Agreement), which replaced the Old Agreement. Under the New Agreement, the obligations of the District and Town remain essentially the same. In addition, Town may draw against the District's Series 2005 Subordinate bonds without further need of the District's consent, to pay the capital costs expected to be paid pursuant to the New Agreement. The District also agrees to levy a minimum service levy of not less than 10 mills and not greater than 50 mills to pay the service costs expected to be paid pursuant to the New Agreement.

**NOTE 9 - RISK MANAGEMENT**

Except as provided in the Colorado Governmental Immunity Act, the District may be exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2005. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials liability and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

**NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS**

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 3, 1998, a majority of the District's electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under TABOR.

**EBERT METROPOLITAN DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**

**NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)**

The District believes it has taken such steps as are appropriate in light of current interpretations of TABOR to comply with its terms. However, TABOR is complex and subject to multiple interpretations. Many of the provisions, including but not limited to the interpretation of how to calculate Fiscal Year Spending and other limits, will require judicial interpretation.

**NOTE 11 - SUBDISTRICTS**

During 2003, the Board of Directors of the District by resolution allowed for the division of the District into one or more subareas. Ebert Metropolitan District Subdistrict No. 1 was established on September 10, 2003, and Ebert Metropolitan District Subdistrict No. 2 was established on December 10, 2003. Different rates of levy for property tax purposes may be fixed against all the taxable property within the Subdistricts for operations and/or repayment of indebtedness issued by the Subdistricts to finance services, programs, and facilities furnished or to be furnished within the Subdistricts.
